The Italians and the Irishmen employed as laborers on the new sewer near Glen Island have had frequent encounters owing to race prejudice. Abou three weeks ago there was a pitched battle between them, and since then the fight has been renewed at intervals. Patrick Riley, twenty-four years old, swore that he would be revenged for some wrong the Italians did him. The Italians laughed and told him to do his worst. All the Italians lived in the shanty provided by the contractors.

On Saturday night Riley got the key to the tool-box, and, after all the other workmen had gone home, he went to the box and took out nine dynamite cartridges, the dynamite battery and all the wires used in biasting. Riley did not say just what he wanted at the tool-box and no questions were asked him. He took the cartridges and the other things to his home, and about 9 o'clock last night went with them to the Italian shanty. It is authoritatively stated that it has been found that in several departments appropriations have been exceeded, and there are numerous unpaid bills, with no money forthcoming to meet them. It is said that the Commissioners of Public Institutions have gone beyond their limit to the extent of \$25,000. In contracting for a building recently the Board expended the entire appropriation on the building itself, and, it is stated, forgot to include the cost of the land.

The Committee May Adjourn for a Vacation This Week.

Higher Police Official Expected to Be Probed First, Though.

Will the Lexow Police Investigating Committee take a vacation after it finishes up its work this week? Chairman Lexow, when seen this morning, said that he felt that be needed a rest.

"I know that the other members of the Committee, or, at least, several of them, have been very hard pushed with their professional and political duties their professional and political duties and feel the same as I do about it.

"However, I do not say that any such course will be adopted, for no opportunity has yet been given of discussing the matter in the full Committee. We will go on again Wednesday morning, and then it will be time enough to settle the queston, as to what we shall do election week."

Senator Lexow was asked if any programme had been laid down for this week, and he replied that plans had been discussed by him and the counsel for the Committee, but he was not at liberty to say anything in regard to them.

for the Committee, but he was not at liberty to say anything in regard to them.

"Is it true that either Police Commissioner Martin or Sheehan will be summoned before the Committee this week?"

"I can't say anything about it. You will have to wait and see."

It is generally understood that the counsel for the Committee have been preparing for some time to launch a new sensation, and the belief is that these expectations will be fulfilled this week. If not one of the Commissioners, at least one or more of the higher officials of the Police Department is confidently expected to be brought forward by the chief inquisitor, Mr. Goff, and made to give up some more of the secrets of the inner workings of the Department.

When Chairman Lexow publicly inquired last week why it was that the counsel were not going up higher and striking at the heads of the Police Department, now that they had laid striking at the heads of the Police Department, now that they had laid so this state of affairs, Mr. Goff said in a striking at the or understand the corruption, for inquiry a formal control of the state of affairs, Mr. Goff said this state of affairs, Mr. Goff said in the state of affairs a

"Patience. We will get there before long."

If, as is expected, the new line of inculty is taken up this week, it is not at all improbable that every one will be willing to have the Committee take a vacation for several weeks, to enable the people to recover from the shock of the exposures that will be made. This, at least, is what those who are in a position to get at some of the inner workings of the investigation affirm.

If a Commissioner is to be summoned, whether it will be Martin or Sheehan who will go through the ordeal first, there is no means of knowing now.
